The Honorable Jesse Kiehl
Alaska State Senator for District Q
Sent via e-mail: Senator.Jesse.Kiehl@akleg.gov

Dear Senator Kiehl:

The City Council of the City of Gustavus are extremely concerned with efforts to defund the Power Cost Equalization (PCE) endowment. Although the ongoing litigation will determine "IF" the legislature can sweep the endowment, the bigger question is "WHY" you would put so many Alaskans in danger of not being able to pay their power bills, subjecting them to the catastrophic risks of having electricity because of extraordinary costs.

Please, follow your moral compass and reverse the sweep of the PCE endowment. Keep the power on for so many of your friends and neighbors that cannot afford the high costs of keeping the heat on, keeping the oven on, and light to survive the harsh winter.

We call for action to ensure payments continue until a long-term solution is in place.

Please, develop and enact a long-term solution that provides for the sustainability of the PCE program. Move the fund into the Permanent Fund and Constitution – or some other mechanism that will sustain these critical assets.

Thank you for your consideration and action.

Sincerely,

Brittney Cannamore, Mayor
