Mike Taylor talked to me about this project last summer. At that time I was not really aware of the scale of environmental destruction that the excavation work would entail. Now, talking to my neighbors who have talked to the contractor, I am very concerned about the impacts and not convinced that the benefits would outweigh the costs. I have not seen flooding on Same Old Road so I'm not sure what the problem is that this huge project aims to correct.

Can we have a meeting including the City, the affected neighbors and the contractor to get a fuller understanding of the project's costs and benefits? Thank you, Carolyn Elder
