Subject: Re: Same Old Road and environs proposed Drainage Restoration project.

Allo....

I just revisit the proposal and the devastation that it would create is not acceptable....

Also to destroy the neighborhood I do believe that the approval of the residents is a must...

I will NOT approve of such extensive devastation...

I would like the people that are pushing this project to put themselves in our (my) shoes and see what you would think...

Once more I don't understand why it has to be so huge and again devastating...

A simple ditch made with a backhoe could be helpful....

Not this monster project....

Thank you but NO THANK YOU....
