

PUBLIC INPUT REQUESTED!

GUSTAVUS BEACH: ISSUE IDENTIFICATION

We all love and use our beach. The Gustavus City Council is collaborating with the State of Alaska to take steps toward cooperatively managing the two tracts of land on the east and west side of the dock (Tract A and B in the map below). To ensure that we properly consider all the issues related to the beach, we are holding our first public hearing about this effort at the City of Gustavus General Meeting on December 11, 2017. A brief overview will be provided and public input to identify issues related to the management of these tracts will be welcomed. We will explore these issues in more detail at public hearings in the spring.

Join Us at City Hall Monday, December 11, 2017 at 7:30pm

(the General Meeting starts at 7, but this topic will not

be addressed until 7:30 at the earliest)
